

## **Accomodations We DO NOT Provide**

### **Tutoring Services:**

Tutoring is not considered an accommodation under ADA and PWSCC does not have a tutoring program specifically for students with disabilities.

Tutoring labs for Math and English/Writing are available to all PWSCC students during the Fall and Spring Semesters at no charge.

### **Personal Aides and Services:**

PWSCC Student Services does not provide attendants, transportation assistance, or services of a personal nature. Such services are not considered to be educational accommodations under ADA.

Students need to make personal arrangements or seek assistance from community resources for such services.

### **Diagnostic Evaluations:**

College policy will not allow the Student Services to pay for diagnostic evaluations, which support a student's claim for accommodations, nor does the college have professionals on staff that can provide such documentation.

It is the student's responsibility to provide documentation to Student Services prior to receiving any services.

### **Financial Assistance:**

PWSCC Student Services does not provide financial assistance to students. Students can seek financial assistance through the PWSCC Financial Aid Office within Student Services.

PWSCC provides ADA educational accommodations free of charge to students with documented disabilities.
